Women Build®

We are proud that our affiliate was founded by women in 1983. Over the past 33 years, women have been part of every facet of the work we do—leading, innovating, and building homes. Beyond this, 70% of our homes have a female head of household, and 58% of single mothers in New Orleans fall below the poverty line. We know that there is an urgent need for affordable housing for women. Women Build is an opportunity to raise awareness of that need, to celebrate the contributions of women to our mission, and to foster an empowering community among those who join our build.
